

Bear Lineup

Materials: red, green, and yellow bear counters

- Have children place 3 red, then 3 green, then 4 yellow bear counters in a line.
- Call out instructions, such as: "Move the second bear to the back of the line. Move the eighth bear to second place."
- After 4 or 5 instructions, ask:
 - What colour bear is third? Last? How do you know? (*I counted to 3 for the bear in third place. I looked at the end of the lineup for the bear in last place.*)
- Children can do this activity with a partner.
